Triads Future

About Page Experience Blueprint

Version: 1.0

Status: Locked

Purpose

The About page exists to build trust.

It should answer one important question:

"Can I trust these people with my business?"

This page is not a company biography.

It is a relationship-building experience.

Rather than focusing on the company's history, it should communicate how Triads Future thinks, works and partners with businesses.

Primary Goal

Build confidence in the people behind the company.

Secondary Goal

Position Triads Future as a long-term business partner rather than a service provider.

Visitor Mindset

By the time visitors reach this page they already know:

- What Triads Future does.
- How the company approaches business growth.
- The quality of previous work.

Now they want to know:

- Who are these people?
- Can I trust them?
- Will they understand my business?
- What happens after the project?

The About page should answer these questions naturally.
