

06 - Solutions Experience

Triads Future

Solutions Page Experience Blueprint

Version: 1.0

Status: Locked

Purpose

The Solutions page exists to demonstrate how Triads Future solves business problems.

The objective is not to showcase individual services.

The objective is to help business owners understand how Triads Future can contribute to their long-term growth.

The page should communicate outcomes before services.

Primary Goal

Help visitors recognize that Triads Future provides complete business solutions rather than isolated digital services.

Secondary Goal

Encourage visitors to schedule a Strategy Call.

Visitor Mindset

By the time visitors reach this page, they already understand:

- Who Triads Future is.

- The company's approach.
- The company's positioning.

Now they want to answer one question:

Can these people solve my business challenges?

The page should answer this naturally.

Strategy Call CTA

Each section builds toward trust rather than selling.

Section 01 — Hero

Purpose

Introduce the philosophy behind Triads Future's solutions.

Focus should remain on business growth rather than technical capabilities.

Visitor Thought

They solve business problems, not just digital tasks.

Section 02 — Introduction

Explain that every business is different.

Therefore every solution begins with understanding the business itself.

No two businesses should receive identical recommendations.

This reinforces the company's consultative approach.

Section 03 — Business Outcomes

Instead of presenting services, organize the page around outcomes.

Outcome 01

Grow Your Digital Presence

Purpose

Increase visibility and attract qualified customers.

Includes

- Digital Marketing
 - Performance Marketing
 - Social Media Marketing
 - Advanced SEO
-

Outcome 02

Build Better Digital Experiences

Purpose

Create modern digital products that represent the business professionally.

Includes

- Website Development
 - Web Applications
 - Mobile Applications
 - UI/UX Design
-

Outcome 03

Strengthen Your Brand

Purpose

Build trust through consistent branding and visual communication.

Includes

- Brand Identity
 - Brand Collateral
 - Photography
 - Videography
-

Outcome 04

Automate Business Operations

Purpose

Improve efficiency through technology and automation.

Includes

- AI Automation
 - Workflow Automation
 - Process Optimization
-

Outcome 05

Scale Your Business

Purpose

Support long-term business growth through strategic planning.

Includes

- Business Growth Strategy
 - Digital Transformation
 - Technology Consulting
-

Solution Card Structure

Every solution category should follow a consistent layout.

Each card contains:

- Outcome Title
- Short Description
- Business Value
- Included Services
- Ideal For
- CTA

Example

Grow Your Digital Presence

Business Value

Help more customers discover your business online through a combination of strategy, content, marketing and search optimization.

Ideal For

Businesses looking to increase visibility, enquiries and qualified leads.

Strategize

↓

Build

↓

Launch

↓

Grow

The process should communicate partnership rather than project execution.

Section 05 — FAQ

Answer common concerns.

Examples

How do you recommend the right solution?

Can multiple services be combined?

Do you work with startups?

Can you improve existing websites?

Do you provide ongoing support?

The FAQ also contributes to SEO.

Section 06 — Strategy Call

Close the page with a consultation rather than a sales pitch.

Suggested Message

Every business has different challenges.

Let's discuss yours.

Primary CTA

Book a Strategy Call

Writing Style

The page should communicate with confidence.

Avoid technical jargon.

Avoid long explanations.

Use outcome-focused language.

Speak in terms of business value.

Visual Direction

The page should feel structured and easy to scan.

Use

- Large section spacing
- Consistent cards
- Minimal icons
- Supporting illustrations where appropriate
- Clear visual hierarchy

Avoid decorative clutter.

Animation Guidelines

Animations should reinforce structure.

Recommended

- Fade-in sections
- Card reveal
- Hover interactions
- Smooth transitions

Avoid excessive movement.

Mobile Experience

The mobile experience should prioritize clarity.

Recommendations

- One outcome card visible at a time.
- Expandable content if necessary.
- Large touch targets.
- Minimal scrolling inside cards.

The page should never feel overwhelming.

Desktop Experience

Desktop should present the solution categories in a balanced grid.

Allow enough space for reading without overwhelming the visitor.

Hover interactions may reveal additional details.

Success Criteria

Visitors should leave the page understanding:

- Triads Future provides business solutions rather than isolated services.
 - Different challenges require different approaches.
 - The company combines multiple disciplines into one growth strategy.
 - Booking a Strategy Call is the logical next step.
-

Things To Avoid

Do not:

Present a long list of services.

Use generic service cards.

Over-explain technical implementation.

Create feature-heavy descriptions.

Compete with the CTA.

Copy traditional agency layouts.

Final Principle

The Solutions page should shift the visitor's mindset from:

"I need a website."

to

"I need a partner who understands how my business should grow."

When that shift happens, the page has achieved its objective.
