

01 - Project Overview

Triads Future Website

Product Overview Document

Version: 1.0

Status: Planning Complete → Development Phase

Prepared By: Abinash Shaji

Project Summary

Triads Future is building a premium business website that positions the company as a **Business Growth & Technology Partner**, rather than a traditional marketing agency.

The website is designed to establish trust, communicate expertise, showcase business impact, and convert visitors into consultation requests.

The goal is not simply to present services, but to create an experience that encourages business owners to start a conversation with Triads Future.

Project Objectives

Primary Objective

Generate qualified business enquiries through a premium digital experience.

Secondary Objectives

- Build trust with potential clients.
 - Position Triads Future as an expert in business growth.
 - Showcase previous work through business-focused case studies.
 - Improve search visibility through SEO.
 - Provide an easy-to-manage content management system.
 - Support future business growth without redesigning the platform.
-

Brand Position

Triads Future is **not** a marketing agency.

Triads Future is a Business Growth & Technology Partner.

Marketing, branding, software development, automation, websites and SEO are tools used to achieve one goal:

Helping businesses grow.

This positioning influences every page, every piece of content and every design decision.

Core Brand Promise

We don't just deliver services.

We help businesses grow.

Website Goals

The website should:

- Build credibility
- Reduce uncertainty
- Demonstrate expertise
- Showcase business impact
- Encourage conversations
- Convert visitors into qualified appointments

The website is **not** intended to sell services directly.

It is intended to create confidence that leads to a consultation.

Target Audience

Primary audience includes business decision makers such as:

- Startup Founders
- Business Owners

- Directors
- Managing Partners
- Marketing Managers
- Operations Managers

Age Range:

25–60+

Industries include:

- Real Estate
- Interior Design
- Automotive
- Healthcare
- Educational Institutions
- Hospitality
- Local Businesses
- Startups

The website should remain industry-neutral to support future expansion.

Visitor Mindset

Visitors generally arrive with one or more of these thoughts:

- My business needs to grow.
- My digital presence is outdated.
- I need a better website.
- I need more customers.
- I need a reliable partner.
- I don't want another agency that disappears after launch.

The website should answer these concerns naturally without sounding like a sales pitch.

Desired Visitor Journey

Visitor arrives

Understands what Triads Future does

Recognizes their own business challenges

Understands Triads Future's approach

Views successful work

Builds trust

Books a Strategy Call

Public Website Pages

- Home
- Solutions
- Work
- Insights
- About
- Contact

Footer Includes:

- FAQ
 - Navigation
 - Contact Information
 - Social Links
 - Copyright
-

Admin Panel Modules

- Dashboard
- Appointments
- Work Management

- Insights Management
- Testimonials
- FAQ Management
- Media Library
- Website Settings

Future versions may include Analytics, CRM and Marketing Automation.

Contact Philosophy

The objective is to reduce friction.

Instead of long enquiry forms, visitors will be encouraged to book a Strategy Call.

Required Information:

- Name
- Phone Number

Optional Information:

- Business Name
- Service Interest
- Preferred Contact Time

The Triads Future team will initiate the conversation.

Technical Stack

Frontend

- Next.js
- TypeScript (preferred)
- Tailwind CSS

Backend

- Next.js API Routes

Database

- PostgreSQL or Supabase (final implementation decision)

Authentication

- Secure Admin Login

Media

- Local storage during development
 - Cloud storage can be integrated later
-

Design Philosophy

The website should feel:

- Premium
- Modern
- Professional
- Human
- Trustworthy
- Business-focused

Avoid:

- Generic templates
 - AI-generated appearance
 - Excessive animations
 - Visual clutter
 - Marketing hype
-

User Experience Philosophy

The website is designed around psychology rather than aesthetics.

Core principles:

- Trust before selling.
 - Business outcomes over services.
 - Visitor is the hero.
 - Triads Future is the guide.
 - Every section exists for a purpose.
 - Every animation supports the experience.
 - Desktop and mobile are intentionally designed separately.
-

Success Criteria

Version 1 will be considered successful if:

- The website clearly communicates the brand.
 - Visitors understand the value proposition within seconds.
 - The appointment process is simple.
 - Content can be managed through the admin panel.
 - The experience feels premium across desktop, tablet and mobile.
 - The client can confidently use the website as their primary digital presence.
-

Version 1 Scope

Included:

- Public Website
- Admin Panel
- Appointment Management
- Blog CMS
- Portfolio CMS
- Testimonials
- FAQ
- Responsive Design
- SEO Foundation

Not Included:

- Advanced Analytics

- CRM
- Google Analytics Dashboard
- AI Insights
- Marketing Automation
- Proposal Management

These features are intentionally deferred to future releases to ensure Version 1 is delivered with high quality.

Development Philosophy

The objective is not to build the biggest website.

The objective is to build a polished, reliable and scalable Version 1 that establishes Triads Future's digital identity and provides a strong foundation for future growth.
