

07 - Work Experience

Triads Future

Work Page Experience Blueprint

Version: 1.0

Status: Locked

Purpose

The Work page exists to replace claims with proof.

Rather than showcasing beautiful designs or completed projects, this page demonstrates how Triads Future solved real business challenges.

Every project should communicate business transformation rather than technical execution.

Primary Goal

Build confidence through real-world business success stories.

Secondary Goal

Help potential clients imagine similar success for their own business.

Visitor Mindset

By the time visitors reach this page, they already understand:

- Who Triads Future is.
- How the company approaches business growth.
- What solutions are offered.

Now they want evidence.

Their internal question is:

Have these people successfully solved problems like mine?

The page should answer this through proof rather than claims.

Section 01 — Hero

Purpose

Introduce the philosophy behind the portfolio.

The page should communicate that every project begins with understanding the business.

Avoid calling it "Portfolio."

Use language focused on business outcomes.

Suggested Heading

Real Businesses. Real Challenges. Real Growth.

Visitor Thought

These aren't just projects.

They're business success stories.

Section 02 — Featured Success Stories

Purpose

Highlight the strongest 3–4 projects.

Quality is more important than quantity.

Each featured story should immediately communicate value.

Each featured project includes:

- Cover Image
 - Industry
 - Client Name
 - Business Challenge
 - Strategy
 - Solution
 - Result
 - CTA
-

Section 03 — Project Library

Display all completed work.

Support filtering.

Filters

Filter by Industry

Examples

- Real Estate
- Interior Design
- Healthcare
- Hospitality
- Education
- Automotive
- Startups
- Local Business

Avoid filtering by services.

Business owners identify with industries more than technologies.

Individual Case Study Structure

Every project should follow the same structure.

Client

Basic business introduction.

Challenge

What business problem existed?

Examples

- Outdated branding
 - Poor online visibility
 - Weak digital presence
 - Low lead generation
 - Manual business processes
-

Strategy

Explain the thinking.

Not the technology.

Describe why specific decisions were made.

Solution

Describe what Triads Future implemented.

Possible services

- Website
- Branding
- Marketing
- Automation
- Photography
- SEO

Result

Explain measurable business improvements whenever possible.

Examples

- Increased enquiries
- Improved digital presence
- Better customer engagement
- Stronger brand identity
- Improved operational efficiency

If exact numbers are unavailable, describe qualitative improvements honestly.

Never invent statistics.

Client Testimonial

One concise review from the client.

Include:

- Name
- Company
- Designation (if available)

Media Gallery

Images

Videos

Before / After comparisons (when applicable)

Storytelling Philosophy

Every project tells a business story.

Business

↓

Challenge

↓

Strategy

↓

Execution

↓

Result

Never reverse this order.

Business owners care about outcomes first.

Industries Section

Demonstrate experience across multiple industries.

Purpose

Help visitors quickly recognize businesses similar to their own.

Possible industries

- Real Estate
- Education
- Healthcare
- Automotive
- Hospitality

- Interior Design
 - Retail
 - Local Businesses
-

Results Section

Instead of generic statistics like

"50+ Projects"

show meaningful achievements.

Examples

- Businesses launched successfully.
- Brands transformed.
- Long-term partnerships.
- Industries served.

Use only verified information.

Avoid exaggerated numbers.

Testimonials

Reinforce trust through client feedback.

Testimonials should support the case studies rather than replace them.

Display:

Photo

Name

Company

Short review

Final CTA

Encourage visitors to discuss their own business.

Suggested Message

Every successful project starts with understanding the business behind it.

Let's talk about yours.

Primary CTA

Book a Strategy Call

Writing Style

Communicate with confidence.

Keep language business-focused.

Avoid technical jargon.

Explain decisions rather than technologies.

Visual Direction

The page should feel premium.

Recommended

- Large project imagery.
- Balanced layouts.
- Strong typography.
- Plenty of whitespace.
- Consistent card structure.

Avoid visual clutter.

Animation Guidelines

Recommended

Image reveal

Hover effects

Smooth transitions

Progressive loading

Avoid decorative animations.

Mobile Experience

Projects should stack vertically.

Each case study should remain easy to scan.

Filters should become horizontal chips.

Images should remain prominent.

Do not overwhelm visitors with excessive text.

Desktop Experience

Allow larger imagery.

Use asymmetric layouts where appropriate.

Alternate image positions to create visual rhythm.

Maintain readability.

CMS Requirements

Admin should be able to:

- Add Project
 - Edit Project
 - Delete Project
 - Upload Images
 - Upload Videos
 - Set Featured Project
 - Choose Industry
 - Add Client Testimonial
 - Publish / Draft
-

SEO Strategy

Each project should generate its own SEO-friendly URL.

Example

/work/interior-brand-transformation

This supports long-term organic visibility.

Success Criteria

Visitors should leave believing:

- Triads Future has real experience.
 - The company understands business challenges.
 - Similar businesses have trusted them.
 - Their own business could benefit from a similar partnership.
-

Things To Avoid

Do not:

Create a simple image gallery.

Focus only on aesthetics.

Hide the business challenge.

Overload projects with technical details.

Invent performance statistics.

Use inconsistent project layouts.

Final Principle

The Work page should not showcase what Triads Future built.

It should showcase what Triads Future helped businesses become.

If visitors leave thinking:

"I can imagine my business being the next success story."

Then the Work page has achieved its purpose.
